About Me

I started developing games with Unity when I was fifteen. It was my dream to be a game developer and I am lucky to live that dream

Experience

Game Developer - Intern Gyroscoping Games

June 2022 - October 2022

During the time I worked, I prepared an object pooling asset ready to be sold on the asset store using editor scripting.

Freelancer on Upwork - Game Developer

July 2023 - Current

I provide freelancing services through Upwork. I accept game development projects.
